

GCSE Maths: Surface area of cuboids, prisms and cylinders (Higher): worksheet

GCSE Maths - Volume, Surface Area and 3D Shapes - Higher - Lesson 19.7

Name: _____

Date: _____

Score: _____

25 questions. Write your answers in the spaces. Answers and step-by-step help are free at websink.site/gcse/maths/ch19-volume-surface-area-3d/higher/surface-area-of-cuboids-prisms-and-cylinders/

Exercise 19H Surface area (non-calculator)

Non-calculator

1 Work out the surface area of each cuboid.

(a) 5 cm by 4 cm by 3 cm

Answer: _____

(b) 6 cm by 6 cm by 2 cm

Answer: _____

(c) 10 cm by 3 cm by 2 cm

Answer: _____

(d) 4 cm by 3 cm by 2.5 cm

Answer: _____

2 Work out the surface area of each cube.

(a) edge 4 cm

Answer: _____

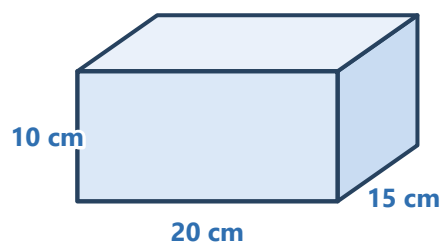

(b) edge 7 cm

Answer: _____

(c) edge 10 mm

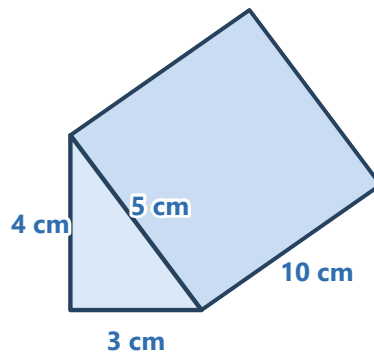

Answer: _____

3 An open box with no lid is a cuboid 20 cm long, 15 cm wide and 10 cm high. Work out the outside surface area.

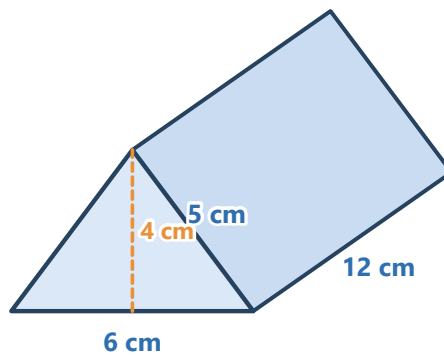

Answer: _____

4 The diagram shows a triangular prism. The triangle is right-angled. Work out the total surface area.

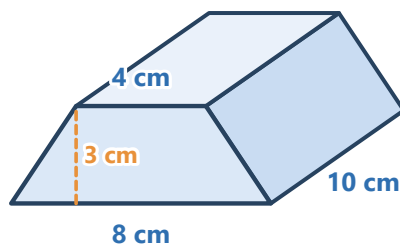

Answer:

- 5** The triangular ends of this prism are isosceles. Work out the total surface area.

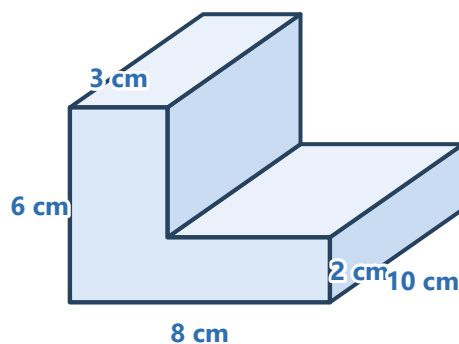

Answer:

- 6** The cross-section of this prism is a trapezium. Work out the total surface area.

Answer:

- 7** Work out the total surface area of this prism, which has an L-shaped cross-section.

Answer:

- 8** Work out the total surface area of each cylinder. Give your answers in terms of π .

(a) radius 3 cm, height 10 cm

Answer:

(b) diameter 8 cm, height 5 cm

Answer:

(c) radius 5 cm, height 2 cm

Answer:

- 9** Work out the curved surface area of each cylinder, in terms of π .

(a) radius 4 cm, height 10 cm

Answer:

(b) radius 3 cm, height 7 cm

Answer:

- 10** An open tin has no lid. It is a cylinder with radius 5 cm and height 12 cm. Work out the outside surface area, in terms of π .

Answer:

- 11** A gift box is a cuboid 30 cm by 20 cm by 10 cm. It is covered completely with wrapping paper. Sheets of paper are 50 cm by 40 cm. How many sheets are needed? (Assume no overlap and that the paper can be cut and joined.)

Answer:

- 12** An open water tank is a cuboid 2 m long, 1.5 m wide and 1 m high. The five outside faces are painted. Paint costs £4 per square metre. Work out the cost.

Answer:

- 13** The total surface area of a cube is 216 cm^2 . Work out the length of an edge.

Answer:

- 14** A cube has edge 6 cm. A cuboid measures 9 cm by 6 cm by 4 cm. Show that they have the same volume. Which has the smaller surface area?

Answer:

- 15** Tom says that the total surface area of a cylinder with radius 3 cm and height 10 cm is $60\pi \text{ cm}^2$. Explain his mistake and work out the correct total surface area.

Answer:

- 16** A cuboid 6 cm by 4 cm by 3 cm is cut in half horizontally to make two identical cuboids, each 6 cm by 4 cm by 1.5 cm. Show that the total surface area increases by 48 cm^2 .

Answer:

- 17** Two cubes with edges 2 cm are stuck together face to face to make a cuboid 4 cm by 2 cm by 2 cm. Work out the surface area of the cuboid, and explain why it is less than the total surface area of the two separate cubes.

Answer:

- 18** A cylinder has radius 5 cm and total surface area $150\pi \text{ cm}^2$. Work out its height.

Answer:

- 19** Show that for any prism the total surface area can be written as $2A + PL$, where A is the area of the cross-section, P its perimeter and L the length of the prism.

Answer:

Exercise 19I Surface area of cylinders (calculator)

Calculator allowed

- 1** Work out the total surface area of each cylinder. Give your answers to 3 significant figures.

(a) radius 4 cm, height 10 cm

Answer:

(b) radius 2.5 cm, height 7.2 cm

Answer:

(c) diameter 12 cm, height 15 cm

Answer:

- 2** An open cylinder (no lid) has radius 6 cm and height 14 cm. Work out the outside surface area to 1 decimal place.

Answer:

- 3** A tin of soup is a cylinder of diameter 7.4 cm and height 10.8 cm. The paper label covers the curved surface only. Work out the area of the label, to 3 significant figures.

Answer:

- 4** An open cylindrical tank has radius 0.8 m and height 1.5 m. The outside (base and curved surface) is painted. One litre of paint covers 4 m^2 . How many litres of paint are needed, to the nearest litre?

Answer:

- 5** A cylinder has radius 3 cm and height 8 cm. Work out the ratio of the curved surface area to the total surface area, in its simplest form.

Answer:

- 6** The surface area of a closed cylinder is 400 cm^2 and its radius is 5 cm. Work out the height to 3 significant figures.

Answer:
