

Year 1: Arrays: rows and columns: answers

Year 1 - Grouping and sharing - Lesson 9.4

Answers. Final answers to the worksheet questions. Full step-by-step solutions for every question are free at websink.site/ks1/maths/year-1/ch09-grouping-sharing/arrays-rows-and-columns/

Exercise 9D Arrays Non-calculator

- 1 How many biscuits are on the tray?

Answer: 8

- 2 How many biscuits are on the tray?

Answer: 9

- 3 How many biscuits are on the tray?

Answer: 10

- 4 Look at the tray. Answer the three questions.

(a) How many rows are there?

Answer: 3

(b) How many biscuits are in each row?

Answer: 5

(c) How many biscuits are there altogether?

Answer: 15

5 Look at the two trays. Do they have the same number of biscuits? Write Yes or No.

Answer: Yes

6 An egg box has 2 rows of 3 eggs. How many eggs are in one box?

Answer: 6

7 Mum buys 2 egg boxes. Each box has 6 eggs. How many eggs does she buy?

Answer: 12

8 Ruby puts 10 chairs in rows of 5 for a party. How many rows of chairs are there?

Answer: 2

9 This tray has 4 rows with 2 biscuits in each row. Write the addition sum, and the total.

Answer: $2 + 2 + 2 + 2 = 8$

- 10** Ali says this tray has 12 biscuits. Jo says it has 6 biscuits. Who is right? Explain.

Answer: Ali is right. There are 12 biscuits.

- 11** Explain why 3 rows of 4 has the same number of things as 4 rows of 3.

Answer: Both have 12 things. Turning the array round does not change the total.
