

Year 1 Science: Trees through the year: answers

Year 1 - Plants Around Us - Lesson 2.6

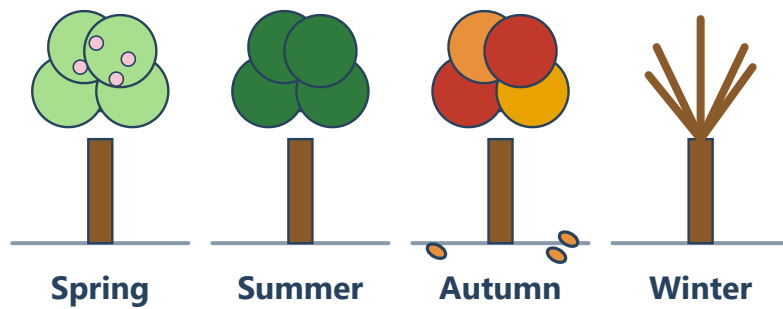

Answers. Final answers to the worksheet questions. Full step-by-step solutions for every question are free at websink.site/ks1/science/year-1/ch02-plants-around-us/trees-through-the-year/

Exercise 2F The seasons of a deciduous tree

- 1 In which season do deciduous trees grow new leaves: *spring, summer or autumn*?

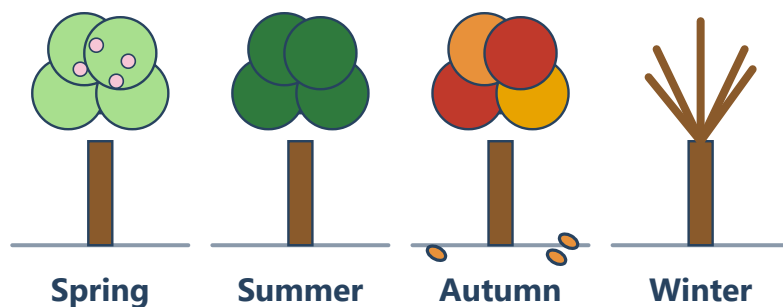

Answer: spring

- 2 Look at the four trees. Which tree has no leaves?

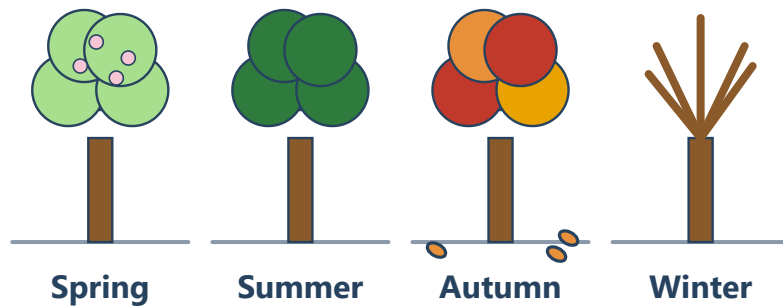

Answer: winter

- 3 Look at the four trees. Which tree has bright orange leaves?

Answer: autumn

- 4 Look at the four trees. Which season has full, dark green leaves?

Answer: summer

- 5** Put these seasons in order, starting with spring: *winter, autumn, spring, summer*.

Answer: spring, summer, autumn, winter

- 6** True or false?

(a) Oak trees lose their leaves in autumn.

Answer: True

(b) Pine trees lose all their needles in winter.

Answer: False

(c) Autumn leaves can be red.

Answer: True

(d) Trees grow new leaves in winter.

Answer: False

- 7** Fill the gap: In autumn, the leaves fall off the tree and land on the ____.

Answer: ground

- 8** Tom says trees lose their leaves in summer. Is Tom right? Explain.

Answer: No. Deciduous trees lose their leaves in autumn.

- 9** Mia says the tree is dead in winter because it has no leaves. Is she right?

Answer: No. The tree is resting. New leaves grow in spring.

- 10** Yusuf draws the same tree in summer and in winter. What has changed, and why?

Answer: The leaves have fallen off. The tree lost them in autumn.
