Year 1 - Animal Groups - Lesson 4.4

Answers. Final answers to the worksheet questions. Full step-by-step solutions for every question are free at websink.site/ks1/science/year-1/ch04-animal-groups/birds-feathers-and-beaks/

Exercise 4D Birds

1 Which group is a robin in: fish, amphibian, reptile, bird or mammal?

Answer: bird

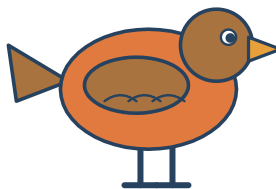

2 What covers a bird's body?

Answer: feathers

3 What does a bird have instead of teeth?

Answer: beak

4 How many legs does this robin have?

Answer: 2

5 Do birds lay eggs with hard shells: yes or no?

Answer: yes

6 True or false? A penguin is a bird.

Answer: True

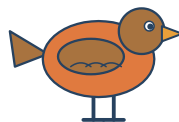

- 7** Which two of these animals are birds? A penguin, B bat, C robin, D snake. Write the two letters.

Answer: A and C

- 8** Look at the picture. Which bird can fly? Write A or B.

A

B

Answer: B

- 9** Why is a bat not a bird, even though it can fly? Use the word fur.

Answer: A bat has fur, not feathers. It is a mammal.

- 10** Working scientifically: Count the birds you see from a window for five minutes. Which bird did you see most? What did you notice?

Answer: Answers will vary. The answer should match the tally the child made.
