

Year 1 Science: Fish: animals that live in water: answers

Year 1 - Animal Groups - Lesson 4.1

Answers. Final answers to the worksheet questions. Full step-by-step solutions for every question are free at websink.site/ks1/science/year-1/ch04-animal-groups/fish-animals-that-live-in-water/

Exercise 4A Fish

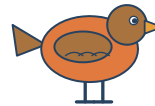

1 Which letter is the fish? Look at the three animals.

A

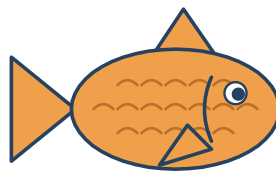

B

C

Answer: A

2 How many fins does this goldfish have?

Answer: 3

3 Does a fish live in water or on land? Write water or land.

Answer: water

4 What does a fish breathe with: gills or lungs?

Answer: gills

5 What covers the body of most fish? Write scales or feathers.

Answer: scales

6 True or false? A fish has feathers.

Answer: False

7 True or false? Most fish have scales.

Answer: True

8 Which of these animals is a fish: a whale, a shark or a bat? Write the word.

Answer: shark

9 A fish has gills. Explain why a fish needs water.

Answer: Its gills need water to help it breathe.

10 Working scientifically: What do you think a fish needs its fins for? How could we find out?

Answer: To swim and to steer. We could watch a goldfish in a tank, with a grown-up, and see how it moves its fins.
