

Year 1 Science: Mammals: fur, hair and milk: answers

Year 1 - Animal Groups - Lesson 4.5

Answers. Final answers to the worksheet questions. Full step-by-step solutions for every question are free at websink.site/ks1/science/year-1/ch04-animal-groups/mammals-fur-hair-and-milk/

Exercise 4E Mammals

- 1 Which group is a dog in: fish, amphibian, reptile, bird or mammal?

Answer: mammal

- 2 What covers a mammal's body? Write fur or feathers.

Answer: fur

- 3 What do mother mammals feed their babies?

Answer: milk

- 4 Do mammals breathe with gills or lungs?

Answer: lungs

- 5 True or false? A dolphin is a mammal.

Answer: True

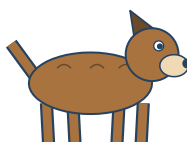

- 6 True or false? A dolphin is a fish.

Answer: False

- 7 Which picture shows a mammal? Write A, B or C.

A

B

C

Answer: B

8 What group is each animal? Write fish or mammal.

(a) A whale

Answer: mammal

(b) A bat

Answer: mammal

(c) A shark

Answer: fish

9 Meera says a bat is a bird, because it can fly. Is she right? Explain.

Answer: No. A bat has fur, not feathers. It feeds its babies on milk, so it is a mammal.

10 Working scientifically: A cat has fur. How could we find out whether a kitten drinks milk from its mother?

Answer: Ask a grown-up, or look in a book or a trusted website about cats. Kittens drink their mother's milk.
