

Year 1 Science: Carnivores: meat-eaters: answers

Year 1 - What Animals Eat - Lesson 5.2

Answers. Final answers to the worksheet questions. Full step-by-step solutions for every question are free at websink.site/ks1/science/year-1/ch05-what-animals-eat/carnivores-meat-eaters/

Exercise 5B Carnivores

1 Fill the gap: carnivores have ___ teeth for holding and tearing meat.

Answer: sharp

2 Which one is a carnivore? A: cow B: lion

Answer: lion

3 True or false? A frog is a carnivore.

Answer: True

4 Name one pet that is a carnivore.

Answer: cat

5 Which two animals are carnivores? lion, cow, shark, rabbit

Answer: lion and shark

6 What does each animal eat?

(a) Owl

Answer: mice

(b) Shark

Answer: fish

(c) Frog

Answer: insects

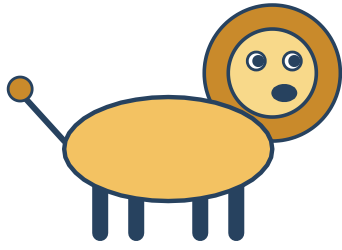

7 Ella says a shark is a herbivore because it lives in the sea. Is she right? Explain.

Answer: No. A shark eats fish, so it is a carnivore.

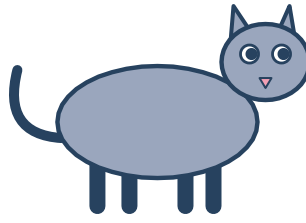

8 Count the carnivores in this list: cat, rabbit, owl, sheep, lion. How many carnivores are there?

Answer: 3

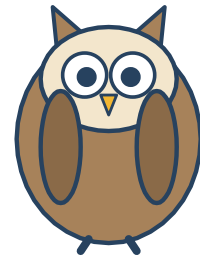

9 Look at the picture. Which animal eats insects?

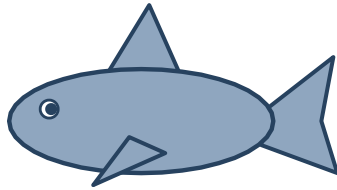

lion

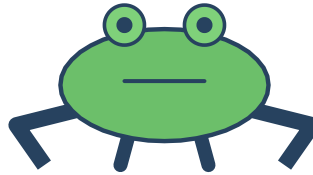

cat

owl

shark

frog

Answer: frog

10 Explain why a carnivore needs sharp teeth.

Answer: Sharp teeth help it to hold and tear meat.

11 Working scientifically: What do you think will happen to a pet cat that is only given carrots? Why?

Answer: It would not get the meat or fish it needs, so it would not stay healthy.
