**10** Spot the mistake: Ruby says, "I use my ears to smell the flowers." Is she right? Explain.

**Answer:** No. We smell with our nose, not our ears.

**11** Explain why you should never taste a berry from the garden without a grown-up.

**Answer:** Some berries and plants are poisonous, so a grown-up must check it is safe first.

**12** Working scientifically: What do you think will happen if you smell a lemon with your eyes closed? How could we find out?

**Answer:** You can still smell the lemon. To find out, close your eyes while a grown-up holds the lemon near your nose, then say what you smelled.

**13** A friend hides a bell in a box. Which sense helps you find it? Explain.

**Answer:** Hearing. The bell makes a sound, so we hear it with our ears.
