(a) Frogspawn in a pond

Answer: spring

(b) A swallow flying away

Answer: autumn

(c) A hedgehog asleep

Answer: winter

10

Ravi says trees have no leaves in summer. Is he right? Explain.

Answer: No. Most trees have full, green leaves in summer.

11

Working scientifically: What do you think will happen to the leaves on an oak tree in autumn? How could we find out?

Answer: The leaves change colour and fall off. We could look at the same tree each week and write down what we see.
